STORM TOLL SEVEN AND PROPERTY LOSS REPORTED ENORMOUS

Louisiana Coast Was Visited by a Tornado That Covered a Strip Fifty Miles Wide.

Houston, Aug. 7.—Seven persons were killed and there was enormous property loss as a result of a tropical storm which swept over a 50-mile strip on the Louisiana coast yesterday between Kinder and Mauriceville.

LAKE CHARLES ALMOST TOTALLY WRECKED.

Lake Charles, La., Aug. 7.—The city was all but wrecked by a tornado yesterday. Few of the streets are passable because of the wreckage of homes piled in the streets and tangled telephone and light wires. So far as known but one person, a negro, was killed and another, a white man, is in the hospital suffering from injuries believed to be fatal. The Pierce Oil corporation building collapsed and caught a score under the debris, but their injuries were minor. The heavy rain prevented a greater disaster, as scores of homes were set on fire when the building collapsed on hot stoves.

Reports from the Gerstner aviation field say the buildings there were completely wrecked. No loss of life was reported there.

STORM IS ABATING.

(By Associated Press) Washington, Aug. 7.—The weather bureau reports the tropical storm on the Louisiana coast abating and no longer of importance.

4000 WHITE MEN CALLED TO REPORT AUGUST 26-30.

Austin, Aug. 6.—A call for 4000 white men to report to Camp Travis on Aug. 26-30, inclusive, and for 1750 negroes to report at the same camp, Aug. 22-29, inclusive, was issued today by the selective draft department, upon instructions from Provost Marshal General Crowder.

A call was also issued for all white draftees of class 1 who are qualified for limited service only to report to Jefferson Barracks, Mo.

CONVICTS PROTECT PARIS.

Paris, July 3.—(By Mail)—Hundreds of convicts who have been confined to the prison at Sante have been placed upon the work of preparing the entrenched camp of Paris. They are assigned to work which will keep them indoors and will be under the surveillance of the gendarmes. They have been detailed to work upon the military camions. Leaving prison, each convict was supplied with a container having two hard boiled eggs, little less than a quarter of a pound of cheese, about two pounds of bread and one pound of meat.

T. N. T. EFFECTS OVERCOME.

London, July 3.—(By Mail)—The evil effects of "TNT" on workers in munition factories have been largely overcome by a close medical supervision of the workers combined with improved methods of working and the substitution of mechanical processes.

In six months, October to March, 1916-1917, there were 169 cases of serious illness; in the corresponding period of 1917-1918 there were only 42 cases; in April this year four cases and in May only one.

(By Associated Press)
Shanghai, Aug. 7.—British troops were landed at Vladivostok at dawn today, according to a dispatch from that city. The troops received a friendly reception.

WHITE GUARDSMEN HELP CHASE BOLSHEVIKI.

(By Associated Press)
Kansdalaska, Aug. 7.—Volunteer detachments of the white guards are giving aid to allied units pursuing the bolshevik forces retreating southward from Archangel. Most of the bolshevik leaders who had not fled from the city have been arrested by the new Archangel government. Before the allied troops landed the Archangel local bolshevik issued proclamation to the troops urging violence toward active citizens.

RUSSIAN SOCIALISTS APPEAL TO BRITISH.

(By Associated Press)
London, Aug. 7.—The Russian social revolutionary party, which is opposing the bolshevik government, has sent a direct appeal to the British labor party urging that efforts be made to convene an international socialist conference.

The appeal declares the Russian revolutionary party is ready to work in unison with the European socialists to re-establish a national power in Russia and abrogate the Brest-Litovsk treaty.

TROTZKY THREATENS THOSE WHO DESERT SOVIET.

(By Associated Press)
Amsterdam, Aug. 7.—Leon Trotzky, bolshevik war minister, has issued a proclamation denouncing as traitors punishable by death all representatives of the soviet power who desert their posts to the allied occupation until everything possible has been done for the defense, says a Moscow dispatch via Berlin.

HOLLAND'S COMMERCE AFTER THE WAR IS GIVEN ATTENTION.

Amsterdam, July 3.—(By Mail)—An advisory commission for Economic Information Abroad, was inaugurated today at The Hague to direct Holland's commercial offensive after the war.

The chairman is W. F. C. L. Van Rappard, former minister at Washington, and the directorate includes chairman of the chambers of commerce of Amsterdam and Rotterdam; Van Aalst, president of the Netherlands Trading company; Kroeller, shipping magnate, and other chiefs of departments, trade, industry and agriculture.

J. J. Loudon, minister of foreign affairs, addressing the commission at his department, said that in view of increasing impediments in the world's traffic only preparatory projects could be made for post bellum trade offensive. The chief object would be to assist the producer, whose patriotism and initiative he appealed to in order to find fresh markets, especially with regard to the colonies.

The government foresees, said Mr. Loudon, the immense economic difficulties which will have to be encountered after the war.

Dutch consuls will be increased in number and given additional facilities to travel about, visit colonies and inform themselves more thoroughly of affairs within their jurisdiction, while a number of consuls at large will be appointed and experts sent out for special purposes. Mr. Loudon added:

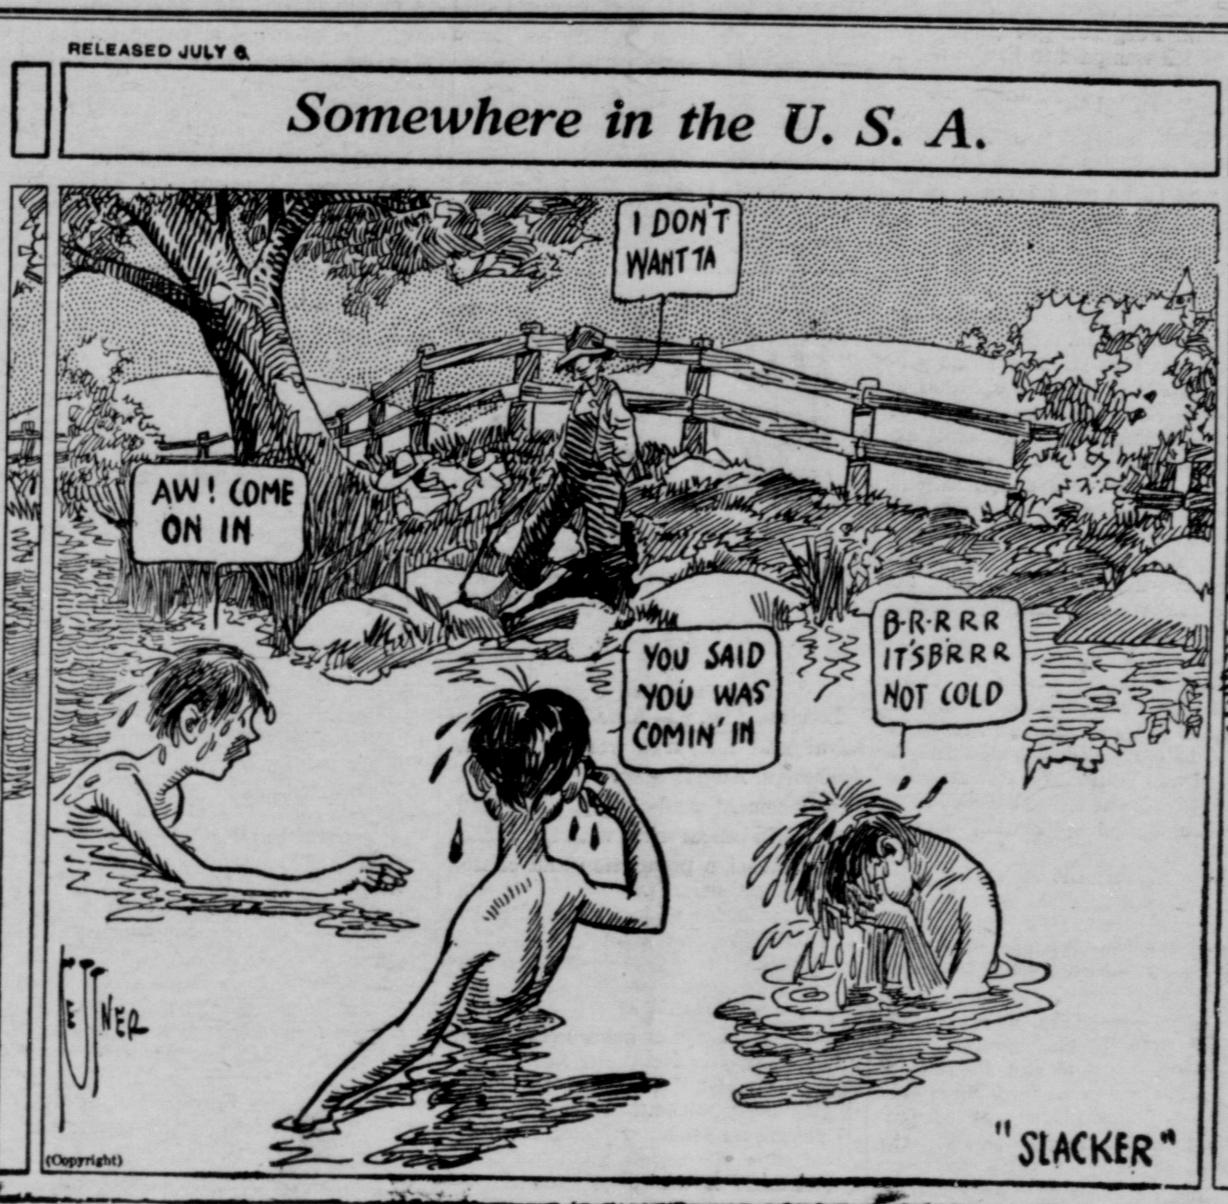

"My days of office are numbered but it will remain a source of satisfaction to me to have installed this commission before departing from office."

Washington, Aug. 7.—Five army lists were issued early today by the war department. They show a total of 579, divided as follows: Killed in action 63, died of wounds 7, died of airplane accident 7, died of accident and other causes 1, died of disease 1, missing in action 105, wounded severely 338, wounded degree undetermined 63.

Marines casualty list shows: Killed in action 51, died of wounds 2, wounded severely 33, wounded degree undetermined 206; total 292.

Corporal John Laughon, Odessa, Texas, Private Arthur Grant, Corpus Christi, Texas, killed in action; William E. Ferguson, Ore City, Texas, died of wounds; Marvin Potson, Amarillo, Texas, Berdes Fancher, Garrison, Texas, missing in action.

Corporal Milton A. Samuel, Fort Worth, Texas, Ray Addison Crawford, Argyle, Texas, William F. Cox, Greenville, Texas, wounded severely.

SAN ANTONIO MAY ERECT ITS OWN SHOE SHINE STANDS.

San Antonio, Tex., Aug. 7.—Mayor Sam C. Bell and the commissioners of San Antonio are contemplating the establishment of municipal shoe shining parlors for the especial benefit of soldiers because of the increase in the price charged by privately-owned shops. It is proposed to utilize space on the bridges spanning the river and on Alamo Plaza.

TWENTY-TWO OF 46 ESCAPED CONVICTS HAVE BEEN TAKEN.

Houston, Tex., Aug. 7.—Twenty-two of the 46 convicts who escaped from Imperial state farm at Sugarland Sunday night had been captured up to early tonight, according to information received in Houston. Three of the captured men are in the Houston jail. Those still at large are reported to have been practically located in Fort Bend county.

NINETEEN UNDER ARREST.

Livingston, Tex., Aug. 7.—Nineteen men, some charged with draft evasion, others with desertion and some with obstructing the draft laws, are confined in the county jail at this place and will be conveyed to Houston by the government authorities for arraignment in the federal court. Most of the men were apprehended at a turpentine still in the northern part of the county. Three or four are white men, the others are negroes.

GERMAN BATTERY WIPE OUT COMPLETELY BY THE FIRE OF AMERICAN GUNS

Resumption of Fighting within a Few Hours Is Indicated by the Activity and Viciousness of the Minor Contests Now Taking Place—British Push Forward in the Flanders Region.

(By Associated Press)

Interesting reports are received from Paris concerning future plans of the Germans. Some observers assert the enemy will strike the British front simultaneously with an attack by the German fleet upon the British fleet.

American machine gunners completely wiped out a German battery west of Fismes Tuesday when enemy prepared an attack on American bridge builders along the river Vesle.

Artillery duels and patrol actions continue along the Vesle front while the allies and Germans make ready for future operations. Indications point to a resumption of fighting along this line within a few hours. Intense bitterness marks what little fighting there has been between Soissons and Rheims. American forces in Fismes north of the river have been subjected to heavy bombardment of German cannon and machine guns.

BRITISH TROOPS RUSH FORWARD TO APEX.

(By Associated Press)

London, Aug. 7.—British troops at the apex of the German salient in Flanders have pushed forward their outposts still further on a front of 2000 yards in Pacaut wood. A number of prisoners was captured by the British.

GERMANS IN CHAMPAGNE ARE REPULSED.

(By Associated Press)

Paris, Aug. 7.—The Germans were repulsed today in local attacks made against French positions south of Aubervilliers in Champagne. French troops last night made further gains in the Montdidier region.

FRENCH OCCUPY CIRY SALLOGNE.

(By Associated Press)

Paris, Aug. 7.—In the course of fighting near the river Vesle the French have occupied the station of Ciry Sallogne, west of the bend where the river Vesle turns northward to join the Aisne.

London, Aug. 7.—An attack carried out this morning southwest of Morlancourt the British regained ground taken from them by the enemy yesterday along the Bray Corbie road, north of the Somme.

SHOOTING AGAIN.

(By Associated Press)

Paris, Aug. 7.—The bombardment on Paris by long range gun was resumed today.

BRITISH ADVANCE AND TAKE PRISONERS.

(By Associated Press)

London, Aug. 7.—British lines on the Flanders front were advanced a short distance last night, which resulted in the capture of a few prisoners, according to the war office announcement.

FRENCH HAVE TAKEN 100 PRISONERS.

(By Associated Press)

Paris, Aug. 7.—The French continue to repulse German attacks along the river Vesle, especially between Braine and Soissons. One hundred prisoners have been captured east of Braisne, says the war office.

MEETS DEATH BY FALL.

(By Associated Press)

Laredo, Tex., Aug. 7.—While descending the stairs in the custom house today Eliser Guerra, aged 35 years, an employee of the custom house, made a misstep and was precipitated to the tile floor. His neck was broken and a deep gash was cut in his forehead. Death was instantaneous.

The lower floor of the federal building was crowded at the time of the accident between Braches and Marisel, north of Montdidier. These are pointed to as a direct menace to the junction point of the armies of General von Hindenburg and Crown Prince Rupprecht.

READY TO LOAN TO BANKS.

(By Associated Press)

Washington, Aug. 6.—To help finance crop movements the war finance corporation announced today it would welcome applications from banks for loans to cover advances by the banks to farmers and merchants for harvesting and marketing wheat and other crops. Loans will be limited to four months and will carry interest at 6 per cent per annum.

FIVE MILLION ARMY QUICK AS POSSIBLE IS THE BAKER IDEA

Men Between 18 and 20 Will Be the Last Sent Overseas, Says General March.

(By Associated Press)

Washington, Aug. 7.—Urging the enactment of the administration power bill extending the draft age, General March told the senate military committee today that the war department planned to raise an army of approximately five million men as soon as possible.

While all men between the ages of 18 and 45 will be subject to military service under the new law, those between 18 and 20 will be the last to leave the country, according to the information of the committee.

The United States reached a decision about July 30 to increase the military program to carry out the policies agreed upon at a recent inter-allied conference in Paris, to speed up the prosecution of the war and bring it to an early and successful conclusion, said General March.

SOLDIER SHIPPING PROGRAM.

(By Associated Press)

Washington, Aug. 8.—Gen. March stated today that the shipment of men overseas would be continued according to the program now in effect for the present.

SOLDIER SHIPPING PROGRAM.

(By Associated Press) Washington, Aug. 7.—General March told the senate military committee today that the war department planned to raise an army of approximately five million men as soon as possible.

While all men between the ages of 18 and 45 will be subject to military service under the new law, those between 18 and 20 will be the last to leave the country, according to the information of the committee.

The United States reached a decision about July 30 to increase the military program to carry out the policies agreed upon at a recent inter-allied conference in Paris, to speed up the prosecution of the war and bring it to an early and successful conclusion, said General March.

BRITISH REGAIN WHAT THEY LOST.</

HIGHWAY LAWS WILL BE RIGIDLY ENFORCED BY COUNTY OFFICIALS

In future those who violate the state and city highway laws will be haled into the justice court where the fines and costs run into sums of \$15 or \$20.

At the meeting of the directors of the commercial club last Tuesday Secretary Eberstadt was directed to write the city, county and military authorities relative to violations of the highway laws, especially with reference to speeding and lights. Captain Funston replied and tendered the services of military police with motorcycles if it was deemed advisable. Some individual directors objected to employing the military arm of the government in this matter, particularly as the chief violators and perhaps all the violators are civilians. Captain Funston, who happened to be passing, was called in and explained that the military police would make no arrests but would take the numbers of cars, report them to the civil authorities and appear in court as a witness. It was suggested that such a man might be deputized by the sheriff. After considerable discussion, during which many complained of the violations of the speed laws and the use of glaring lights, failure to maintain lights on horse drawn vehicles and failure to keep lights burning on autos standing in the streets at night, Judge Maloney stated that he would confer with the sheriff's department with a view to seeing that the law is enforced regardless of whomsoever the car may belong to. Accordingly a motion was put and carried that the judge's proposal be accepted and that if he found it necessary he should be authorized to accept the offer of Captain Funston.

"I want to warn all our fellows now that these cases will come up in the justice courts, where the fines and costs run up to \$15 or \$20," the judge said.

Exactly what the plans of the judge are he did not state, but it is likely that motorcycle deputy sheriff will be put on the College road, and his machine will be equipped with a speedometer to determine the speed at which autos may be running, so there can be no question about it. This deputy will be expected to post himself on all phases of the highway law and bring into court all those who may violate it in any way. According to those who have traveled the highway at night lately, there are speedsters, glaring lights and road hogs galore, and their suppression can only be accomplished by a rigid enforcement of the law and heavy fines.

M. E. Wallace, as spokesman for the trade extension committee, stated that the members of the committee had expressed the opinion that as cotton picking is now in full blast and town merchants are busy, they deemed it advisable to set aside the trade trip set for next Wednesday, but send out the August number of the Commercial Club Journal, just the same. Upon motion the recommendation of the committee was adopted.

With the American Army on the Aisne-Marne Front, Aug. 6.—The hurried retreat of the Germans has served to relieve conditions in the hospitals, since there has been a marked falling off in the number of wounded. The number sent to the rear in the last two days has been almost negligible. As a matter of fact, most of those now asking aid are men who have dropped out because of exhaustion. An indication of the stern chase the Germans are forcing upon the allies was contained in a message which came over the field wires to headquarters from a commander leading an American unit:

"My men must rest," he said. "Must rest!" exclaimed headquarters.

"Yes," was the answer. "Our men are absolutely tired out from running to keep up with the Germans."

EDINBURGH IS FULL OF PATRIOTISM AND RESPECT FOR U. S.

Judge H. Edinburgh, with the A. E. F. in France, is wonderfully proud of the old U. S. A., for he sees what has been accomplished in the prosecution of the war and predicts complete victory within a year. Writing to J. O. Tucker he says:

On Active Service with the American Expeditionary Force, July 8th, 1918, Marchenhoir Hoiv et Cher France—Dear Mr. Tucker: Just a few lines to let you know that I have not forgotten you. Have now been over here better than half a year and in that time I have had many very interesting experiences, seen many wonderful sights and been to very many parts of this country. Am behind the steering wheel the greater part of each day and many times long into the night. Am in the best of health, feeling fine, know we are going to win and confident it will not be much longer.

Received some papers from home and see where Odie has arrived safely France. What is he in and what is his address? Has Oliver left the States for the trip across yet? If not tell him to write me and if he has also send me his address.

The French people treat us with every courtesy and we think lots of them and can't say I dislike this country for it is O. K. Still the U. S. is the best and greatest country in the world and though I always loved it never have I loved it more than I do now and I am most proud to be able to do my bit in its service and for the protection of our people's liberty and happiness. Uncle Sam has in one short year performed miracles, for I see so very much and the more I see the more I wonder how it all could be done in such a very short time. The men over here, the supplies; well, everything it is nothing short of wonderful and I am proud I am even such a small bit of such a great performance. Let the slacker, the alien enemy, profiteer be punished and miserable that will not support in every way possible such a great country, and such a great government as ours. Rest assured that victory is for us and our valiant allies who have suffered more than one, who has not seen, can imagine. Give everyone my very best regards and write me soon, for letters home are a source of pleasure. Strong in the belief that before another year passes we will have the kaiser and his murderers down and out, I am always sincerely,

LATEST IN TRUCKS RECEIVED AT COLLEGE FOR ARMY TRAINING

Nine liberty trucks, the latest devices in the truck line designed for the war department, have been received by the department of agricultural engineering at A. and M. college for use in the instruction of the auto mechanics who are being trained for army service there. The trucks have all the latest equipments for efficiency and the comfort of the drivers, along with several safety devices that have not been employed in other trucks. Included in these safety devices is a lighting equipment under the body of the truck which furnishes just enough light for the operation of the cars but not sufficient to reveal the presence of the trucks at night to enemy gunners and airplane bombers.

A quartermaster's depot for the army contingents in training at the college will be erected within a few days between Milner hall and the carpenter shop and plans have been drawn for a military hospital to be erected in the rear of the Shirley hotel, so as to relieve the college hospital for the use of the students during the regular term of school, which opens September 18.

BREWERS MADE LOAN TO FERGUSON, ADOUE TESTIFIED AT AUSTIN

Austin, Aug. 2.—L. A. Adoue, testifying in the case against Henning Bruhn and Charles Grossman, brewery officials, in the federal district court yesterday told of the making of \$50,000 and Henning Bruhn for \$25,000 in order to loan money to James E. Ferguson, then governor of Texas. He denied that the loans were made to influence legislation.

Denial that Mr. Ferguson received \$25,000 from the Lone Star Brewing association was made by E. J. Braswell, bookkeeper of the association.

Ferguson's name was brought into the trial when Attorney F. M. Etheridge of Dallas, representing the government, asked Braswell if Bruhn did not tell him Ferguson got \$25,000 of \$28,750 which was paid to Bruhn Sept. 25, last.

"No, sir," replied the witness.

FOR NECESSARY EXPENSES.

Witness said Bruhn told him the \$28,750 was to be used for necessary expenses of the business.

Braswell said the total general expenses of the association in 1917 were \$46,570.90. The general expenses as shown on the report to the government was \$415,203.33.

He testified that H. Bruhn was given a check for \$4000 and charged to general expense. This was a part of the amount charged to general expense on the income tax return.

L. A. Adoue of Galveston, largest stockholder in the Lone Star association, was given a check for \$6000, witness said, and this also was charged to general expense. Both this and the \$4000 check were signed by Bruhn, the witness said.

Braswell testified the Lone Star Brewing association gave the Gross National bank of San Antonio a note for \$25,000 early in 1917. It was made out Jan. 2, 1917, and was due July 2, 1917, and was paid April 30. Another note for \$3750 was dated June 9, 1917. Both were signed by Bruhn, witness said.

BILLS PAYABLE ACCOUNT.

Braswell said there is no record of the notes on the "bills payable account" of the brewery association, in response to a question from Mr. Etheridge. All other items are shown on the association's books, he said. He explained that he had no record of the money being paid and did not enter it on the books because "it would have thrown my books out of balance." He added that he thought the \$28,750 was used to take up those notes. No explanation was asked or made, regarding this transaction, he testified.

Braswell denied Bruhn told him any part of the \$28,750 was used in local elections.

On cross examination Braswell said he made out the income and excess profit returns for the brewing association.

SAYS FRAUD EASY.

In describing how he made up these returns, he said that the deputy internal revenue collector at San Antonio considered "extraordinary expenses, if legitimate, a proper deduction and that the government would ask for a correction if it was not proper. Bruhn signed the report after "I talked with the deputy collector," witness said.

Asked by counsel if the items under discussion could not have been "covered up by fake charges" on the association's books, Braswell said it would have been easy if any fraud had been intended. The returns were made out exactly as in previous years, he added.

Later when internal revenue agents called at the brewing association's office, Braswell said, "I turned over everything they asked for except the draft for \$28,750, which I could not find because the bank keeps the drafts."

CASUALTIES NOW OVER FIFTEEN THOUSAND.

Washington, Aug. 5.—Army and marine corps casualties reported from overseas during the week ending Sunday increased 1430 compared with 1050 the week before. Total casualties reported are 15,196 including Sunday's list of 283, the largest number yet reported in a single day and marine corps list of two.

While as yet no figures on casualties on the great allied offensive in which American troops are playing so conspicuously a part have been received, the increase in the daily army lists undoubtedly is due in part to this fighting. The increase for the week was 1834. The marine corps list increased only 46 for the seven days.

HIGHWAY LAWS WILL BE RIGIDLY ENFORCED BY COUNTY OFFICIALS

In future those who violate the state and city highway laws will be haled into the justice court where the fines and costs run into sums of \$15 or \$20.

At the meeting of the directors of the commercial club last Tuesday Secretary Eberstadt was directed to write the city, county and military authorities relative to violations of the highway laws, especially with reference to speed and lights. Captain Funston replied and tendered the services of military police with motorcycles if it was deemed advisable. Some individual directors objected to employing the military arm of the government in this matter, particularly as the chief violators are civilians. Captain Funston, who happened to be passing, was called in and explained that the military police would make no arrests but would take the numbers of cars, report them to the civil authorities and appear in court as a witness. It was suggested that such a man might be deputized by the sheriff. After considerable discussion, during which many complained of the violations of the speed laws and the use of glaring lights, failure to maintain lights on horse drawn vehicles and failure to keep lights burning on autos standing in the streets at night, Judge Maloney stated that he would confer with the sheriff's department with a view to seeing that the law is enforced regardless of whomsoever the car may belong to. Accordingly a motion was put and carried that the judge's proposition be accepted and that if he found it necessary he should be authorized to accept the offer of Captain Funston.

"I want to warn all our fellows now that these cases will come up in the justice courts, where the fines and costs run up to \$15 or \$20," the judge said.

BREWERS MADE LOAN TO FERGUSON, ADDOU TESTIFIED AT AUSTIN

Austin, Aug. 2.—L. A. Adou, testifying in the case against Henning Bruhn and Charles Grossman, brewery officials, in the federal district court yesterday told of the making of notes by Otto Wahrund for \$50,000 and Henning Bruhn for \$25,000 in order to loan money to James E. Denial that Mr. Ferguson received \$25,000 from the Lone Star Brewing association was made by E. J. Braswell, bookkeeper of the association.

Archangel People Greet U. S. Troops With Great Cheers

(By Associated Press)

London, Aug. 6.—Allied forces, both naval and military, were landed at Archangel Aug. 2, according to official announcement made today. The landing was in concurrence with the wishes of the Russian population and caused general enthusiasm.

American troops participated in the landing. The first detachment of the international forces included members of the Russian officers' league.

The participation of the Americans in the landing has been greeted enthusiastically in Northern Russia. The people consider that the United States is absolutely without selfish interests as regards Russia and look upon the village soviets in the country adjoining Archangel.

In their flight from Archangel the Bolsheviks forces carried away 40,000 rubles in money and much other treasure, but left many supplies behind them. The bridges and railway lines were not damaged.

The new provisional government at Archangel which has assumed power "throughout the region of the north" is receiving the voluntary support of the village soviets in the country adjoining Archangel.

The population of Archangel received the troops with cheering. The men debarked and advanced toward Archangel, where already an anti-

bolshevik revolution had taken place. The leaders in this movement invited the protection of the allied troops.

The final resistance of the Bolsheviks occurred Saturday. They were definitely defeated at the station at Ysakgorka on the left bank of the Dvina.

In their flight from Archangel the Bolshevik forces carried away 40,000 rubles in money and much other treasure, but left many supplies behind them. The bridges and railway lines were not damaged.

The new provisional government at Archangel which has assumed power "throughout the region of the north" is receiving the voluntary support of the village soviets in the country adjoining Archangel.

STERN RESISTANCE IS OFFERED BY GERMANS.

London, Aug. 3.—The terrorist campaign against the Germans by Russian social revolutionists of the left includes the explosion at Kiev which resulted in the death of 700 German soldiers in addition to the murder of Marshal von Eichhorn.

Paris, Aug. 5.—Allied pursuit of the Germans continues. Latest reports are that a few enemy troops remain south of the river Vesle. French patriots have crossed the Vesle at Bozoches and Jonchery west and east of Fismes respectively. The allies are meeting with stern resistance.

While as yet no figures on casualties on the great allied offensive in which American troops are playing so conspicuously a part have been received, the increase in the daily army lists undoubtedly is due in part to this fighting. The increase for the week was 1384. The marine corps list increased only 46 for the seven days.

Later when internal revenue agents called at the brewing association's office, Braswell said, "I turned over everything they asked for except the draft for \$28,750, which I could not find because the bank keeps the drafts."

Asked by counsel if the items under discussion could not have been "covered up by fake charges" on the association's books, Braswell said it would have been easy if any fraud had been intended.

On cross examination Braswell said he made out the income and excess profit returns for the brewing association.

SAYS FRAUD EASY.

In describing how he made up these returns, he said that the deputy internal revenue collector at San Antonio considered "extraordinary expenses, if legitimate, a proper deduction and that the government would ask for a correction if it was not proper." Bruhn signed the report after "I talked with the deputy collector," witness said.

VOTES OF WOMEN IN THE PRIMARIES SURPRISINGLY HEAVY

A total of 2402 votes were cast in the Democratic primaries last Saturday and had the rural women voted proportionately with their city sisters, they would have almost equaled the vote of the men. A total of 1503 men voted and 899 women. In the two city precincts in Bryan there were 510 women votes and 638 men. The following table, compiled by County Judge Maloney, shows how the men and women voted in the several precincts:

	Men.	Women.
Precinct 1	99	35
Precinct 2	76	53
Precinct 3	157	62
Precinct 4	44	3
Precinct 5	89	62
Precinct 6	132	72
Precinct 7	82	34
Precinct 8	95	49
Precinct 9	91	19
Precinct 10	265	161
Precinct 11	373	349
Total	1503	899

The county executive committee met this morning at 10 o'clock in the court house and canvassed the returns. W. S. Higgs, who was elected upon the resignation of E. W. Crenshaw, was chosen without opposition to preside over the destinies of the Democratic party in this county by the people last Saturday and presided at the meeting this morning.

The returns showed the following were chosen chairmen of the precincts:

PRECINCT CHARMEN.

- No. 1—S. L. Dunlap.
- No. 2—Jess C. Royer.
- No. 3—J. P. Tabor.
- No. 4—W. P. Moore.
- No. 5—I. M. Cook.
- No. 6—Jim Tobias.
- No. 7—J. W. Harris.
- No. 8—J. W. Bland.
- No. 9—John Kosarek.
- No. 10—F. L. Henderson.
- No. 11—O. C. Vick.

The official returns in tabulated form are printed elsewhere in The Eagle.

It appeared that second primaries will be necessary in the races for county treasurer, sheriff and commissioner of precinct No. 1. Accordingly the date of the run-off primary was fixed for August 24, the date for the state run-off primaries.

Official returns from Robertson county on the race for district judge have not been received but a report received from unofficial sources states that W. C. Davis carried the county by over 800. He carried Brazos county by 1228 majority, thus winning in the district by over 2000.

While E. A. Decherd carried Brazos county by a majority of 116 he did not maintain his lead in the other counties of the district, losing the contest, according to latest published figures, by about 3000 votes.

In commissioners precinct 1 a second primary will be necessary. The returns show that in the three voting boxes composing the precinct J. M. Atkins received 215 votes, F. H. Pool 234 and E. D. Carl 139. Hence as none received a majority of the votes cast the second primary will be necessary.

In commissioners precinct 2 John Sabo received 226 votes and George P. Edge 215.

In commissioners precinct 3 Charles Di Stefano defeated J. J. Cahill.

In commissioners precinct 4, C. A. Buchanan defeated W. G. Reynolds.

Judges of the peace have been elected as follows:

Precinct 1—C. B. McGregor.

Precinct 2—Ab. Shaw, A. C. Williams and E. U. Peters received each four votes in voting box 5, but box 3 was not available at the time this was compiled.

Precinct 3—William Conrad.

Precinct 4—J. W. Hamilton.

Precinct 5—Charles Merka.

Precinct 6—B. T. Echols.

Precinct 7—J. P. Royer.

Precinct 8—C. M. Degalia.

Constables were elected as follows:

Precinct 1—Robert Fuqua.

Precinct 2—Hardy Weedon had a majority in voting box 5.

Precinct 3—L. L. Shultz.

Precinct 4—C. L. Baker received 588 votes and L. J. Cox 440.

Precinct 5—John Kosarek.

Precinct 6—C. B. Moore.

Precinct 7—J. L. Hensarling.

Precinct 8—Frank Cusezolo.

LIBERTY CHORUS IN BRYAN.

To the Bryan Eagle:
I read in Friday's issue of The Eagle that liberty choruses are to be organized all over the state. I don't know just how long I will be here but while I remain I would like to give the project a good start. I have been thought of often but I have been too busy with my war garden. Now that things won't grow I would like to do something for my country in my line. I hope to organize a children's chorus, a men's chorus and a ladies' chorus and put them all together in one grand mass chorus. I hope that all men who can carry a tune will come and practice. I'll do the rest. I hope that all business men will come and learn the songs when they go on their monthly trips they can sing the songs of all the nations that are against Germany. In addition I want to sing "Praise God From Whom All Blessings Flow" and "The Church Is Our Foundation." Then when Mr. State Director comes to Bryan he will find a grand chorus. I hope to use one of the churches for practice and before I leave we will get out on Main street and have one big sing-song. GABE CAZELL.

USE OF LIGNITE AND BY PRODUCTS PRESENT BIG POSSIBILITIES

Fuel Engineer From U. S. Bureau of Mines Here in Making a Survey of Texas Deposits.

As is well known to geologists and everybody else who has taken a scintilla of interest in the subject, Texas is wonderfully supplied with lignite. It is here in vast quantities. Brazos county has large deposits of it. The utilization of this lignite has been indefinitely discussed in the state, some efforts have been made to get it into merchantable shape and quite a few small factories employ it in making steam for their plans. Its wider use has been attempted but usually by men who failed to consult the scientists and hence with but half knowledge of the rather intricate and considerably unknown subject. Lignite, as far as Texas is concerned, notwithstanding its vast quantities, has been a rather neglected subject.

Recently there was introduced a bill in both the senate and house of congress for the appropriation of \$100,000 for the establishment of a practical plant for experimenting with lignite and the development of its possibilities on a commercial basis. This factory would handle 100 to 125 tons of raw lignite a day and its location would depend upon proximity to the deposits and the facilities of getting to market with the products derived from the lignite. One of the products of the lignite is gas, 10,000 cubic feet to the ton, 6000 of which are used in the plant and there being 4000 surplus for domestic or manufacturing purposes outside. For example, if such a plant should be established near Bryan and consume 100 tons of lignite a day, there would be gas, very cheap gas, for all purposes, heating, lighting, cooking and steam and power purposes, to the amount of 400,000 cubic feet per day. That would be sufficient to supply the city and give a big surplus for our neighbors.

S. M. Darling, fuel engineer of the bureau of mines, was here this week incidental to a survey of the state's supply of lignite and the commercial possibilities for the lignite by-products. Mr. Darling appeared in June before the house sub-committee on mines relative to this bill, and there stated some of the things possible from the use of lignite. Besides the gas there is produced coal tar and from coal tar we get many of our dyes, sulphate of ammonia, carbolineum which is something like creosote and is used for the same purposes, benzol, which is a near relative of gasoline and briquettes, to make which there must be a binder and that is easily obtainable from the oil fields of Texas. Mr. Darling also stated that some of the Texas and Arkansas lignites are high in oils, the presence and extent of which would be another thing tested out in this plant.

The plant contemplated in the bill is in reality an experiment station limited to handling lignite and the results of its experiments would be available to private capitalists who might want to engage in the industry on a larger scale. One possibility of the development of the use of lignite in this state is the establishment of power plants at the mines and the distribution of electric energy at cheap rates over such territory as each could with economy cover.

As one third of the estimated coal supply of the country, a trillion tons, is in lignite, and as the lignite deposits are confined mostly to Texas and South Dakota one may get some idea of this fuel, now much neglected but which congress, partly as a war measure, is seeking to develop for Texas.

When you yawn a good deal in the day time, feel dull, achey and want to stretch frequently—it is an unmistakable symptom of malaria, and unless you do something at once you are doomed for a spell of chills. Herbine is a chill medicine that will prevent or cure the disease. It drives out the impurities on which the malarial germ thrives, strengthens the liver and cleanses the bowels. Price 60c. HORSESHOEING SOLDIERS LABOR FOR NOTHING.

The horseshoeing school at A. and M. College just at this time is an interesting and active place. On some days as many as a dozen horses have been shod by the soldiers in training. Any persons bringing horses to this school during Wednesday, Thursday and Friday to have them shod will be expected to pay only the cost of material used, as the work is done by the soldiers for practice. This will be the last opportunity for some time as these soldiers expect their orders to move in a few days, and the crowd that succeeds them will not reach the stage of practice in horseshoeing for some little time.

LIKE AN ELECTRIC BUTTON ON TOES.

Tells Why a Corn Is So Painful and Says Cutting Makes Them Grow.

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezeon. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly, and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug freezeon is harmless and never inflames or even irritates the surrounding skin.

AMERICANS IN TAKING FISMES ENGAGED IN THE BITTEREST FIGHTING OF THE WAR

Paris, Aug. 5.—Americans in taking Fismes in hand to hand fighting covered themselves with glory. The fighting is said to have been the bitterest of the whole war. Prussian guards, asking no quarter were bayonetted or clubbed to death as they stood by their machine guns.

Fismes was taken after a heavy artillery fight that began in the middle of the afternoon. A few Americans entered the town Saturday afternoon and remained there all night. They were driven out early Sunday. The Germans threw gas shells and shrapnel into the southern part of the town making it inadvisable for the little party to remain longer.

The town of Fismes was taken late in the day by the American troops supported by the French.

Franklin seems to be some attraction there.

HARVEY.

Harvey, Aug. 2.—The revival at Harvey has closed with but little visible results. The attendance was fine; many attending regularly from nearby communities. The preaching was earnest, plain and entreatting. The good seed were sown and none but God can judge of the future results. Quite a number from Bryan attended the meeting. Mrs. B. Barron and Miss Minnie Ferguson visited their father and sister last week.

Miss Mary Mann is visiting friends in Harvey.

Miss Willie Weeden returned from Wharton Monday, accompanied by her sister, Mrs. Devaston Buchanan and her little son, Clifton. Miss Willie says Devaston Buchanan has a delightful home right near the river bank three miles from Wharton and that it was much cooler than here.

Mit Weeden is on the sick list this week.

Misses Ina Capps and Nova Ward have just returned from a visit to Miss Clara Jones.

Profs. J. E. Batson and Arthur Ford, now in the service, are visiting friends in Harvey. Batson attened an officers' training camp this summer and attained the rank of first Lieutenant.

A. P. Buchanan has a position in Wharton with Magnolia Oil Co. and will move his family there tomorrow. We regret very much to lose them but wish them success in their new home.

Will Jones is digging a deep well in his pasture and will put up a windmill. He says he is tired of being out of stock water every summer. These droughts come so regularly that it would be well if all our farmers would dig larger and deeper tanks for their stock. Many pumped or drew water for all their stock till December last year.

Besides the gas there is produced coal tar and from coal tar we get many of our dyes, sulphate of ammonia, carbolineum which is something like creosote and is used for the same purposes, benzol, which is a near relative of gasoline and briquettes, to make which there must be a binder and that is easily obtainable from the oil fields of Texas. Mr. Darling also stated that some of the Texas and Arkansas lignites are high in oils, the presence and extent of which would be another thing tested out in this plant.

The plant contemplated in the bill is in reality an experiment station limited to handling lignite and the results of its experiments would be available to private capitalists who might want to engage in the industry on a larger scale. One possibility of the development of the use of lignite in this state is the establishment of power plants at the mines and the distribution of electric energy at cheap rates over such territory as each could with economy cover.

As one third of the estimated coal supply of the country, a trillion tons, is in lignite, and as the lignite deposits are confined mostly to Texas and South Dakota one may get some idea of this fuel, now much neglected but which congress, partly as a war measure, is seeking to develop for Texas.

When you yawn a good deal in the day time, feel dull, achey and want to stretch frequently—it is an unmistakable symptom of malaria, and unless you do something at once you are doomed for a spell of chills. Herbine is a chill medicine that will prevent or cure the disease. It drives out the impurities on which the malarial germ thrives, strengthens the liver and cleanses the bowels. Price 60c. HORSESHEOEING SOLDIERS LABOR FOR NOTHING.

The horseshoeing school at A. and M. College just at this time is an interesting and active place. On some days as many as a dozen horses have been shod by the soldiers in training. Any persons bringing horses to this school during Wednesday, Thursday and Friday to have them shod will be expected to pay only the cost of material used, as the work is done by the soldiers for practice. This will be the last opportunity for some time as these soldiers expect their orders to move in a few days, and the crowd that succeeds them will not reach the stage of practice in horseshoeing for some little time.

LIKE AN ELECTRIC BUTTON ON TOES.

Tells Why a Corn Is So Painful and Says Cutting Makes Them Grow.

Press an electric button and you form a contact with a live wire which rings the bell. When your shoes press against your corn it pushes its sharp roots down upon a sensitive nerve and you get a shock of pain.

Instead of trimming your corns, which merely makes them grow, just step into any drug store and ask for a quarter of an ounce of freezene. This will cost very little but is sufficient to remove every hard or soft corn or callus from one's feet. A few drops applied directly upon a tender, aching corn stops the soreness instantly and soon the corn shrivels up so it lifts right out, root and all, without pain. This drug freezene is harmless and never inflames or even irritates the skin.

AMERICANS IN TAKING FISMES ENGAGED IN THE BITTEREST FIGHTING OF THE WAR

Paris, Aug. 5.—Americans in taking Fismes in hand to hand fighting covered themselves with glory. The fighting is said to have been the bitterest of the whole war. Prussian guards, asking no quarter were bayoneted or clubbed to death as they stood by their machine guns.

Fismes was taken after a heavy artillery fight that began in the middle of the afternoon. A few Americans entered the town Saturday afternoon and remained there all night. They were driven out early Sunday. The Germans threw gas shells and shrapnel into the southern part of the town making it inadvisable for the little party to remain longer.

The town of Fismes was taken late in the day by the American troops supported by the French.

WELLBORN.

Wellborn, Aug. 6.—News here is scarce but work is plentiful. Cotton picking is the object of the day.

Rev. Bard assisted by Rev. Morehead of Beaumont is conducting a

revival meeting here. Rev. Morehead is pastor of the First Methodist church of his city and is a fine young evangelist. We would be glad to have more come out and be with us.

J. L. Hensarling is erecting a nice new store to be occupied by A. G. Neely soon.

Mrs. A. Hensarling arrived from Houston Sunday.

Mrs. Lee spent last week in Houston, the guest of her sister.

Miss Bessie Hensarling of Steep Hollow is visiting here and attending the revival.

HARVEY.

Harvey, Aug. 2.—The revival at Harvey has closed with but little visible results. The attendance was fine; many attending regularly from nearby communities. The preaching was earnest, plain and enthralling. The good seed were sown and none but God can judge of the future results. Quite a number from Bryan attended the meeting. Mrs. Barron and Miss Minnie Ferguson visited their father and sister last week.

Miss Mary Mann is visiting friends in Harvey.

Miss Willie Weeden returned from Wharton Monday, accompanied by her sister, Mrs. Devaston Buchanan and her little son, Clifton. Miss Weeden says Devastons Buchanan has a delightful home right near the river bank three miles from Wharton and that it was much cooler there.

Mit Weeden is on the sick list this week.

Misses Ina Capps and Nova Ward just returned from a visit to Miss Clara Jones.

Profs. J. E. Batson and Arthur Ford, now in the service, are visiting friends in Harvey. Batson attended an officers' training camp this summer and attained the rank of first Lieutenant.

A. P. Buchanan has a position in Bryan with Magnolia Oil Co. and will move his family there tomorrow. We regret very much to lose them but wish them success in their new home.

Will Jones is digging a deep well in his pasture and will put up a windmill. He says he is tired of being out of stock water every summer. These drouths come so regularly that it would be well if all our farmers would dig larger and deeper tanks for their stock. Many pumped or drew water for all their stock till December last year.

No, up from mansion and from cot,

The sons of Liberty

Will answer to the call of right,

And set the nations free.

The scions of men who fought and died

To keep our nation one,

Will rise and sheath the sword

'Till Freedom's cause is won.

In days of yore when tyrant king,

With baneful, bloody hand,

Sought to inveigle and enslave

That little patriot band,

The fire of freedom, early lit,

Flamed into righteous rage;

And, lo! the birth of liberty—

The democratic age.

What shall it be ye men of now,

Whose fathers knew no fears;

Whose first great captain said our flag

Should wave a thousand years;

Shall we, like cowards, cringe and crawl,

Shall we, like slaves, submit

To wrongs our fathers met with steel,

And conquered e'er they quit?

No, up from mansion and from cot,

The sons of Liberty

Will answer to the call of right,

And set the nations free.

The scions of men who fought and died

To keep our nation one,

Will rise and sheath the sword

'Till Freedom's cause is won.

Then up! To arms! Unsheathe the sword!

Go, meet thy foeman strong;

His insolent, murderous calumny

Has cursed our land too long.

Humanity, take heart again,

Old Glory is unfurled!

America the Beautiful,

The savior of the world.
